# Design Aplikace

The screenshot displays a web application interface. On the left is a vertical sidebar menu with the following items: Home (house icon), Catalog (book icon), Map (map icon), Sources (document icon), Statistics (gauge icon), and User administration (person icon). The main content area features a 'FILTER' button with a downward arrow. Below it are six input fields: 'Name', 'Type', 'Coordinates', 'Written form', 'State or territory', and 'Group by' (a dropdown menu). A 'SEARCH' button with a magnifying glass icon is positioned to the right of the 'Group by' field. Below the filters is a table with seven columns: Name, Alternative names, Written form, Type, State or territory, Coordinates, and Certainty. The table contains five rows of data, each with the value 'Cell' in every cell. At the bottom right of the table area, there is a pagination control showing 'Rows per page: 10', '1-5 of 13', and navigation arrows.
